

Gupta Permold Finishing Center

SINGLE-SOURCE METALFINISHING:

Our Permold process provides aluminum parts with a smooth, pleasing, silvery appearance. However, if our as-cast surface won't sell your product, we have a complete line of metal finishes in-house to meet your aesthetic requirements. In addition, the finishes shown to the right are simply popular selling examples. Gupta Permold is always ready to cater a metal finish to your specific needs.

Finish	Description	Applications/Comments
SILKFINISH	Smooth as silk finish	<ul style="list-style-type: none"> - Our most popular finish - Ideal for pre-painting or coating - Excellent for applications where handling safety is important - Surpasses die-casting and squeeze-casting in smoothness
KROMEFINISH	Chrome-like Luster	<ul style="list-style-type: none"> - Akin to bright-ball burnishing - Adds zip to any product
SILK-KROME FINISH	Smooth chrome-like luster	<ul style="list-style-type: none"> - Two great finishes combined into one - A smooth, bright finish - Great inexpensive substitute for chrome-plated and machined finishes
ULTRACHROMEFINISH	Brilliant chrome polish	<ul style="list-style-type: none"> - Our "Cadillac" of finishes - Genuine chrome polish to a mirrored finish
BRUSHFINISH	Brushed polish	<ul style="list-style-type: none"> - Low RA characteristics - Inexpensive - Limited to right-angle surfaces
PowderCoat	Powder-coat	<ul style="list-style-type: none"> - All colors and varieties - Hides as-cast finish incredibly well
e-finish	Sleek, Pure-Black finish	<ul style="list-style-type: none"> - Great substitute for Black Anodizing - No masking required
Clear Finish	Smooth, High-Gloss Look	<ul style="list-style-type: none"> - A smooth, attractive, glossy finish - "Builds" on a casting's look

Feel free to contact us for samples or more information on any of the finishes described above.
